

Point of Sale for Takeaway Restaurants

The Tablet Cash Register (TCR) is a cost effective electronic point of sale (EPOS) system specifically designed for small to medium size retailers. It allows smaller retailers to garner the same efficiencies EPOS provides large retailers at a price point you can afford.

Tablet cash register's enhanced functionality allows retailers to upgrade from out-dated electronic cash registers without the complexities and typical costs associated with enterprise focused POS systems. Feature rich functionality with online business reporting that can be extended with customer and appointment management as needed.
